

Srikanth Venkatesan

Software Engineer

Chennai, India

07305626768 · srikanthvenkatesan22@gmail.com

Skills

C++

Python

Java

Languages

Tamil

French

English

Hobbies

Reading books, Cricket,
Chess, Formula 1 and
Photography

Profile

As a sophomore **majoring** in Big Data Analytics **in** Computer Science, I **have** an insatiable curiosity **in solving** complex **problems** and **implementing** solutions **from data**. I thrive on challenging projects that allow me to apply algorithms, and machine learning techniques to real-world datasets, **fueling** my **passion** for discovery and **innovation**. **Beyond the limitations** of the **course**, I participate in research initiatives **to explore new** trends in data analysis and pioneer **new ways** of solving modern problems.

Education

Completed my 12th, Chinmaya Vidyalaya Virugambakkam, Chennai
April 2009 — July 2022

Extra-curricular activities

Courses

Programming in Java , IITK
August 2023 — December 2023

Data Science for Engineers, IITM
August 2023 — December 2023

Internships

Intern, Bharat India

November 2023 — December 2023

During my internship at Bharat India, I **immersed myself** in machine learning and **honed** my skills in data analysis, **modeling** and algorithm **application**. I worked with **business experts** to **apply** theoretical knowledge to real-world **projects** and **gained** experience **using** data-driven solutions to **solve** problems that were difficult in many ways.
